Nottingham Business Growth Webinar

Why You Never Wash a Rental Car

A free interactive webinar

Tuesday 15th June 2021
Delivered via Zoom

With speaker
Mark Fritz

How to get your team to take full accountability... and avoid the need to chase them up!

When was the last time you washed a rental car? Probably never!...You don't own it.
In leading your organisation in today's complex and uncertain world, would you rather have your people renting or OWNING their job? This session is about using the POWER OF OWNERSHIP to become even more successful in leading your organisation...getting your people to OWN achievement. Lack of ownership kills your team's performance.

Learning Outcomes
- Understanding of the core leadership skills that drive 'ownership' in your people/organisation.
- Define specific leadership habits that create a strong 'ownership' role model for your team.
- See communications tools that influence your people to take more 'ownership'.

Mark Fritz mentors ambitious executives globally to get their people to OWN IT! He has spoken on leadership and the power of ownership in over 50 countries. Before mentoring and speaking, he led enterprise systems implementations in Europe, Middle East and Asia.

07:50am Open for Sign-in & Breakout Networking | 08:15am Presentation starts | 10:00am Close
